Program Description & Objectives
This course is designed to present advanced instruction of upper and lower extremity trauma to practicing orthopaedic surgeons and orthopaedic residents who have working knowledge of present technology.

Participants will be updated on the new techniques and philosophies in the modern management of orthopaedic trauma. Participants will have the opportunity to apply these new techniques for treating fractures of the upper and lower extremity. An individualized instruction will be provided by faculty members. By making physicians aware of these recent options in treatment, we hope to lessen patient morbidity and enhance satisfaction and outcome.

Meeting Location
Grand Hyatt New York
50 West 40th Street
New York, New York 10018
Tel: (212) 861-2070

Hotel Accommodations
A block of rooms has been reserved at the Grand Hyatt, at the special rate of $289 per night, plus tax & local taxes. These special room rates are available to the course attendees from May 10 - 12, 2012. Other rates and conditions may apply. Additional information can be obtained by calling the Grand Hyatt directly.

Orthopaedic Trauma: An Integrated Approach to What We Need to Know in 2012

Program Description & Objectives

This course is designed to present advanced instruction of upper and lower extremity trauma to practicing orthopedic surgeons and orthopedic residents who have working knowledge of present technology. Participants will be updated on the new techniques and philosophies in the modern management of orthopaedic trauma. Participants will have the opportunity to apply these new techniques for treating fractures of the upper and lower extremity. Abstract individualized instruction will be provided by faculty members. By making physicians aware of these new treatment options in treatment, we hope to lessen patient mortality and enhance satisfaction and outcome.
